Dear Beets:

It was very gratifying to have your kind and friendly words. Now it behooves me to be sure that I can get the full benefit of any advice you may have to offer from your own experience of moving from a laboratory to a university presidency. Of course, Rockefeller is not Chicago, but if you should at any time have any thoughts about what we should be doing and aren't or vice versa I hope you will not hesitate to pass them on.

By coincidence I've seen a fair bit of Hannah Gray in the last several months; but I am sure you will already know her much better than I do.

Sincerely,

JL/gel
